2. Call for Citizen Comments

3. Approval of the May 27, 2025 Technical Committee meeting summary

4. Communications and Announcements

5. New Business

a) Draft UCTC Resolution 2025-12: Adopt the Ulster County Transportation Council Year 2050 Long Range Transportation Plan.

The Draft UCTC 2050 Long Range Transportation Plan will be presented to UCTC Technical Committee members. Federal regulations require that each MPO shall develop a long range transportation plan (LRTP) from which the transportation improvement program (TIP) shall be derived at least every 5 years if meeting air quality conformity standards. The UCTC last adopted a LRTP in 2020 with a horizon date of 2040; a revision updating the Financial Plan was adopted in 2023. UCTC has updated its LRTP to year 2050 based upon new data collected and forecasted. Plan 2050 sets the planning and programming priorities for the entire UCTC metropolitan planning area transportation system. The 2050 LRTP was developed by UCTC staff with public engagement assistance provided by FHI Studios (now IMEG) and technical assistance provided by Transpo Group. UCTC staff will present the contents of the plan to the UCTC Technical Committee. In accordance with UCTC Operating Procedures, public meetings presenting the draft LRTP were presented on August 13 in Kingston and August 14 in Ellenville; both meetings were accessible to the public by Zoom and posted to the [UCTC YouTube channel](#).

Recommended Action: *Discuss Resolution 2025-12 and consider opening to public review and forwarding to the Policy Committee for consideration (20 minutes).*

b) Draft UCTC Resolution 2025-13: Amendment to the 2023 – 2027 UCTC Transportation Improvement Program to Add New NYSDOT Project PIN 8LC231.

At the request of New York State Department of Transportation, Draft Resolution 2025-13 will amend the 2023 – 2027 UCTC Transportation Improvement Program (TIP) to add new project PIN 8LC231. The project will rehabilitate one culvert that carries NY Rte 213 over an unnamed stream; rehabilitate one culvert that carries US Rte 209 over an unnamed stream; replace the culvert that carries NY Rte 299 over an unnamed stream and two culverts that carry NY Rte 28 over unnamed streams. The project will

Technical Committee Meeting**

make the facilities more resilient to extreme weather events. Total project cost is \$8.049 utilizing a mix of state and federal funds; project schedule has construction obligation in October 2025 (FFY2026).

Under UCTC TIP Amendment Procedures, any project to be added or removed from the UCTC TIP requires Technical Committee approval, 15 day public comment period, and final Policy Committee approval.

Recommended Action: *Discuss Draft Resolution 2025-13 and consider opening the resolution for public comment and forwarding to the Policy Committee for consideration (30 minutes).*

6. Other/Old Business

- Ulster County Traffic Counts
- Other Project Updates
- Ulster County Traffic Safety Board scheduled for September 8, 2025
